Hanson, of South Sioux City, is seriously ill at her home with influenza. Mrs. C. G. Clements has departed for Grand Mound, Ia., to attend the funeral of her brother-in-law, who died of influenza. This is the third death in her family in eight weeks. The visitors entertained by Dakota county, Neb., officials of a rapidly swelling school fund through the confiscation of automobiles driven by booze runners have fallen flat. 'Twas naught but an idle dream brought about through a misinterpretation of a decision of the supreme court. As the law had been understood, machines driven by liquor transporters could be seized, held for a certain period and sold. The proceeds were then to be turned over to the school fund. With Sheriff George Cain holding eight machines recently seized, varying in value from \$500 to \$2,000, the school fund apparently was due for a substantial increase. The supreme court's decision, however, it was learned last night, provides that the machine can be confiscated and sold, but that after court costs against the owner of the machine have been deducted the balance of the money must be turned over to the original owner of the car.

Died—In South Sioux City, Neb., Sunday, April 13, 1919, Robert McBride, aged 35, of diabetes. He is survived by his widow, a daughter, his mother and a sister. In a fall from a freight car in which she had been playing, 6-year-old Mabel Austin, of South Sioux City, had one hand badly lacerated Sunday when it caught on a projecting rod on the car. Katherine Carney, of South Sioux City, who recently submitted to a transfusion of blood operation in order that the life of her father, Michael Carney, might be prolonged, is seriously ill at her home. Physicians state that the operation has no bearing upon her illness. An unusual situation respecting the disposition of an automobile held by Sheriff George Cain at Dakota City, Neb., developed yesterday. The car, a new Columbia six, was seized Saturday, March 6, when Cy Thompson of Allen, Neb., was arrested at the combination bridge for illegal transportation of liquor. The charge followed the discovery of a pint bottle of whisky in the car. Upon arrest Thompson claimed ownership of the car, which he had purchased that day from the Dealey Motor company, 313 Fifth street, Sioux City. Then Thompson, discovering that the loss of his car was probable through confiscation notified an Allen bank to stop payment on a check given the automobile firm. The check was returned to the Dealey company and yesterday they appeared before County Judge Sherman McKinley, attempting to recover the car through replevin. Judge McKinley has not yet issued the writ of replevin, taking the case under advisement until more details of the tangled ownership can be procured.

worth any expenditure, however great.

The war ended because Germany saw our strength, felt our power manifested by our gigantic and rapid preparation. The war ended because Germany feared America with her wealth of resources, her enthusiastic and untiring efforts at preparation and most of all, her millions of loyal citizens who so nobly supported their nation in her four Liberty Loans.

Even now that the war is ended, America's sons and daughters will not falter. They will finish the task begun; will pay the debts incurred by the war's speedy termination with 100,000 or more lives saved; will bring back the boys to home and happiness; will care for the unfortunate wounded; will provide for the widows and orphans of heroes slain; will uphold the principles for which America has always stood.

America calls to each loyal son and daughter today! You will not let her call in vain. Let both men and women respond to her clarion call by loyally and wholeheartedly buying Victory Notes, April 22.

LET US MAKE OUR WORD GOOD

The real test of patriotism is will you stay on the job until it is finished?

When you make a promise to keep it. On April 6, 1917 we, THE UNITED STATES GOVERNMENT, promised the Imperial German Government a good licking. So far as fighting goes, we have made good, but the job is not finished until the bills are paid. Let us complete the promise of April 6, 1917, by fully subscribing our Victory Loan quota on April 22, 1919.

In days gone by in most every community you could find the citizen who, though able, was slow to pay his honest debts, and frequently it was necessary to bring pressure to bear before he would do so. This citizen was known as the "Dead Beat", now he is termed the "Slacker."

If we fail to support our Government by refusing to subscribe to the Victory Loan promptly, all civilized nations of the world can truthfully say that the citizens of these UNITED STATES OF AMERICA are slackers.

HAVE WE DONE OUR SHARE?

Between April 6, 1917, and November 11, 1918, more than four million of our boys joined the colors and more than two million of them crossed the Atlantic to crush the greatest military organization of all time. In the great struggle, sixty-three thousand of our boys made the supreme sacrifice for our protection and happiness. Those boys, some of them from Dakota Co., gave up their lives and are now taking their last long sleep in the blood stained battlefields of Europe. No one can know how brave those boys and young men were and how determined to defeat an enemy who was their enemy because he was an enemy of free people over here. Can it be possible there are any Americans who want to leave what their soldier boys began, unfinished? The answer will be in the Victory Loan. We want a complete victory. We cannot celebrate until we show the vanquished foe that we think enough of Victory to pay for it. Do your duty and pay for the price of peace that you will enjoy. You have bought something. It's yours. Lend to pay for it and get a receipt. Buy Victory bonds and help the Government that helped you. A few months ago, we were lending for war. Today we are to lend for peace. Don't be selfish and un-patriotic. Buy Victory Bonds and let it be a Loan of Thanksgiving.

MRS. FRANK CHURCH,
Publicity Chairman.

FARM BUREAU NOTES

C. R. Young, County Agent

The Dakota City Farmers' Elevator meeting which was to be held last week was postponed until Thursday of this week. It is expected that the entire \$20,000.00 will be raised by that time. The constitution and by-laws will be ready for adoption at the meeting, Thursday night, April 17, at the Court House.

On Thursday afternoon beginning at 1:30 a bee meeting will be held on the S. A. Mason farm two and a half miles south of Dakota City. This is an ideal place for a meeting as they have over 90 stands of bees and a large amount of equipment. Mr. Baker, to whom the bees belong, is one of the most successful apiculturists in Northeastern Nebraska. A specialist from the State University will be in charge of the meeting. This work should be of interest to older children, as well as men and women. The afternoon will be very full. Come for it all.

From April 21 to 26 a series of pocket gopher eradication demonstrations will be held at various points over the county, at the present time four precincts are organized for control work. These precincts will be more thoroughly covered during this series of meetings than those not yet organized. By organization we mean they have a leader who has promised to assist in his immediate neighborhood. During the summer we hope to complete the organization work in the county, and will then hold more meetings.

Seventeen meetings will be held during the week. One of these will be in the forenoon of each day and two in the afternoon. We know the people are busy and it will be necessary for us to make as much progress as possible. For these reasons we will not be more than a couple of hours at a place.

We feel sure that they will be worth your time. We will have poison for sale at cost. Boys should be interested in this work.
